OBJECTIVE:

Full Stack Developer with 2+ years of experience building scalable web applications, RESTful APIs, and real-time systems. Proficient in Node.js, Express.js, React.js, Mongo DB, PostgreSQL, and Microsoft Azure. Hands-on experience with WebSocket, Scrum workflows, third-party integrations (Shopify, webhooks), and cloud deployment on Azure. Passionate about writing clean, maintainable code and solving complex business problems for product-based and service-based companies.

TECHNICAL SKILLS:

BACKEND: Node.js, Express.js, Hapi.js, REST API Development, JWT Authentication, Micro services

FRONTEND: React.js, Redux, HTML5, CSS3, JavaScript (ES6+), Typescript

DATABASES: PostgreSQL, MySQL, MongoDB, MS SQL Server

CLOUD & DEVOPS: Microsoft Azure, Azure Functions, AWS, Docker, CI/CD

LANGUAGES: JavaScript, Typescript, Python, C#

TOOLS & CONCEPTS: Git, GitHub, Postman, VS Code, Cursor, Scrum, MVC Architecture, API Integration, Unit Testing, Database Design, Performance Optimization, Debugging.

EXPERIENCE:

SOFTWARE DEVELOPER | LITHI INFOTECH, MADURAI | JUNE 2025 – JULY 2025

- Reworked legacy backend architecture using Node.js and Hapi.js, improving system scalability and reducing average API response time.
- Implemented secure RESTful APIs with JWT authentication and optimized MS SQL Server queries, cutting database query execution time.
- Developed backend modules for a mobile application, including the User Panel, Dealer Panel, and Admin Panel, supporting over 1,000 active users.
- Designed and developed the backend architecture for a matrimony application using Node.js and Hapi.js, integrating Razorpay for online payments and Firebase Cloud Messaging (FCM) for push notifications.
- Designed and implemented webhook integrations with three external platforms—Shopify, MDI, and TPH—to automate order processing and data synchronization, eliminating manual workflows.
- Built multilingual localization modules using Language Master and Localization tables, enabling dynamic language support for more than five languages across the application.

BACK-END DEVELOPER | FLEXIDIGIT TECHNOLOGIES, BENGALURU | MAY 2024 – MAY 2025 (WFH)

- Developed 20+ RESTful APIs for Hotel Management, HRMS, and Warehouse Management System (WMS) modules — including master data, inbound/outbound, and admin dashboards — serving 3 production applications.
- Built Warehouse Management System (WMS) with dynamic PDF generation and a C# utility to parse and print label files, reducing manual printing time using file watcher system.
- Developed Azure Functions in .NET to convert Microsoft Project (MPP) files to JSON and transfer data between Azure Blob Storage containers, automating a previously manual workflow.
- Designed and deployed core modules (login, master data, reporting, and search) for 2 e-commerce websites with secure authentication and data visualization dashboards.
- Managed backend deployment on Microsoft Azure, and ensuring production scalability and security.

FULL STACK DEVELOPER (MERN) - INTERN | WHY GLOBAL SERVICES, EGMORE | OCT 2023 – April 2024.

- Built responsive web application features using React.js and Node.js under senior developer guidance, contributing to 3 sprint deliverables in a Scrum environment.
- Improved understanding of scalable application architecture, RESTful API design, and Clean coding practices.

TRAINEE | DRDO, BENGALURU | DEC-2022 – FEB -2023

- Gained exposure to software development practices in a defense research environment, including enterprise system workflows and advanced technology documentation.

EDUCATION:

M.Sc. Computer Science — Thiagarajar College, Madurai, May 2023.

B.Sc. Computer Science — Thiagarajar College, Madurai, May 2020.

CERTIFICATION:

- PYTHON — (Udemy)
- JAVA — (SSI) Madurai
- Full Stack Development — (WHYTAP) Chennai
